

The logo for xpograph. The word "xpograph" is written in a lowercase, sans-serif font. The letter "x" is unique, consisting of a vertical bar on the left and a horizontal bar on the right that loops back to the left, creating a stylized 'X' shape. The letter "p" is a simple vertical bar. The letters "o", "g", "r", "a", "p", and "h" are formed by white spaces within a black rectangular background, giving them a cut-out or hollow appearance.

OUR EXPERTISE: CREATE, DESIGN AND BUILD EXHIBITS THAT MEET YOUR NEEDS

Are you looking for unique, high-impact exhibit solutions?

All of our solutions are created to put the spotlight on your message. Our display system allows you to easily create a custom exhibit using pre-assembled modules.

With its full surface area completely dedicated to the graphic image, our modular system creates an unparalleled visual impact while also providing a full assortment of useful functionalities. The endless combinations possible between panels and accessories ensure that your exhibit is unique.

A perfect solution for those that would like an exhibit that is both modular and flexible for purchase or rental.

PRE-ASSEMBLED MODULAR SOLUTIONS

Proudly
Made in
North
America

New: integrate LED video walls

Details are a priority

Transport crate

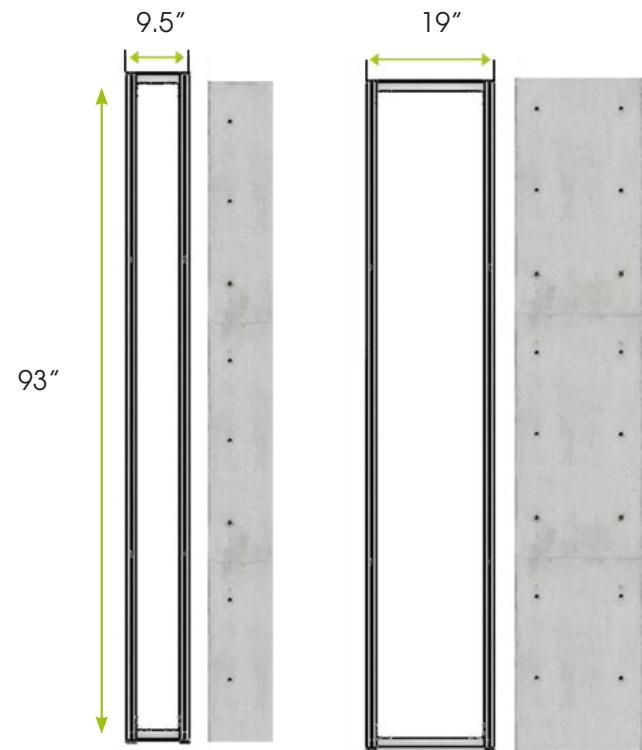

Create a customized exhibit using pre-assembled modules that offer a wide range of functionalities.

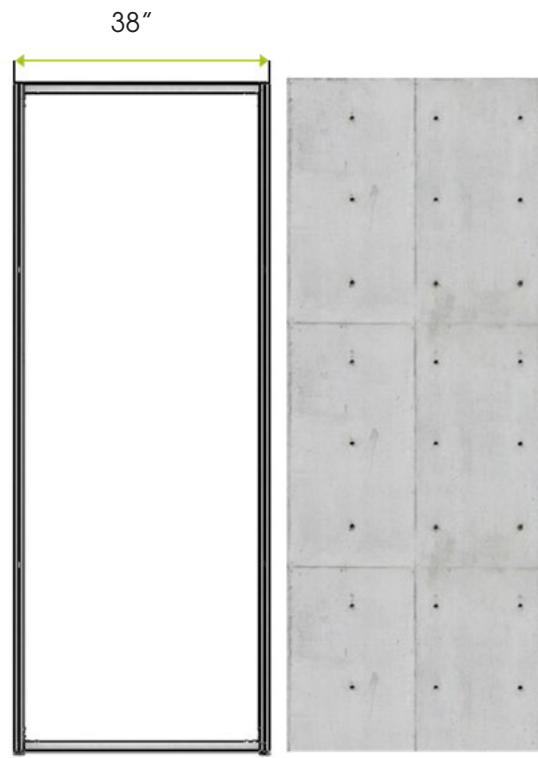

The visual impact of h-line is created through large format, high-definition fabric graphics. The connections between the panels are invisible.

Panoramic h-line is compatible with *panoLED*: innovate and bring your exhibit to life with *panoLED* video walls.

CONCEPT

3 modules sizes:
9.5", 19" and 38"

Every panel is delivered with pre-installed
graphics, just connect them!

BENEFITS

SHOWCASE YOUR IMAGE

Put the graphic image front and center! No visible aluminum profile means your message is even more effective and your exhibit carries a true mark of quality.

ENDLESS MODULARITY

All module types can be connected to one another - no restrictions! Rest assured that you can use your exhibit in every space, even those you have yet to consider. Panoramic h-line is a completely scalable solution that grows along with your company.

FOCUS ON THE ESSENTIALS

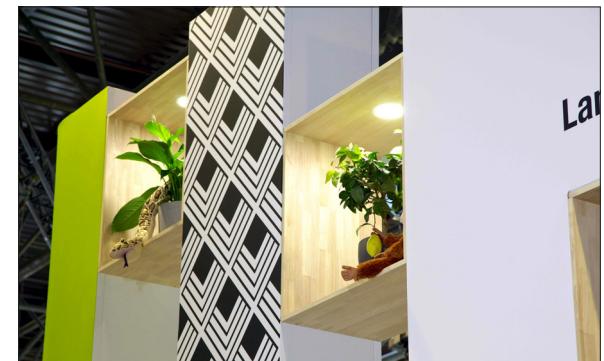

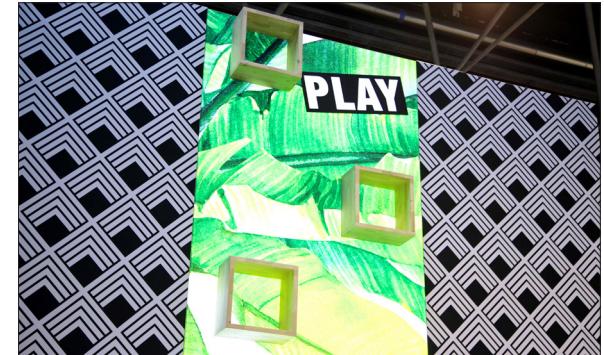

Each module has been designed to provide its own unique functionality (communicate, display, add depth, spread your message, store, and welcome customers). You can pre-fit certain modules by adding optional kits for even more functionality.

BE CREATIVE

Distinguish your company by creating your own custom graphics or use our database of colors and patterns specifically chosen for Panoramic h-line. Put a part of yourself in your exhibit!

CLEVER & SIMPLE

Panoramic h-line requires zero technical expertise and is set-up without the use of tools. Set-up the exhibit yourself, or with our assistance. Standard modules do not exceed a weight of 19 lbs. Set-up for a 20' x 10' exhibit takes less than 1 hour for 1 person.

GRAPHICS

DYE-SUBLIMATED FABRIC GRAPHICS

Features a Silicone Edge Graphics attachment system, in which silicone is sewn into the edge of the graphic and is then inserted into the groove of the panoramic profile.

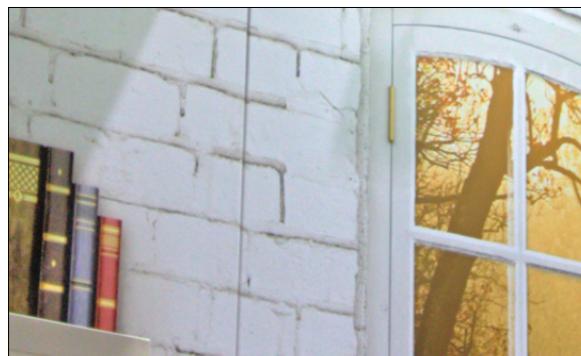

Extremely precise graphic dimensions ensure perfect graphic tension upon installation.

The right fabric for each use: opaque Panopac fabric for maximum visual impact and optimal color rendering, light-diffusing fabric for lightboxes and backlit frames.

Easy to transport and ship.

Silicone Edge Graphics

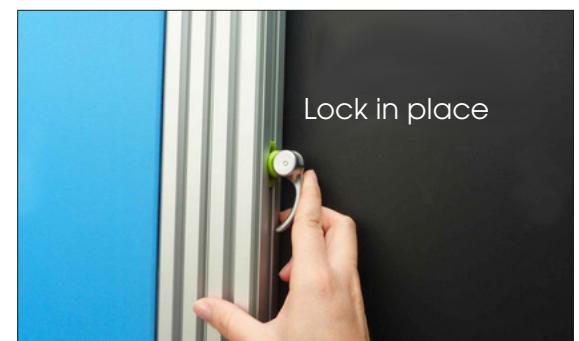

Result: no visible aluminium profile

Push

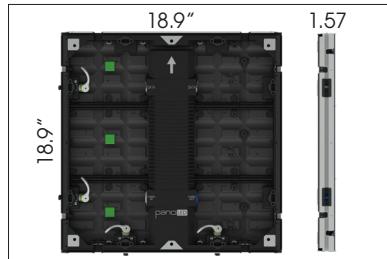

Turn 1/4

Lock in place

All modules can be connected to one another

NEW PRODUCTS: PANOLED

The thinnest and most lightweight panel

Crisp images and vibrant colors

Preinstalled connectors for easy assembly

Explore the field of endless possibilities! Create custom video walls using panoLED LED panels.

panoLED lets you create modular video walls by quickly assembling 18.9" x 18.9" panels.

Offers easy and ultra-secure attachment through the use of preinstalled h-line connectors.

A silicone edge graphic can be fitted to the reverse side of the panel thanks to a patented innovation (patent pending).

INNOVATION

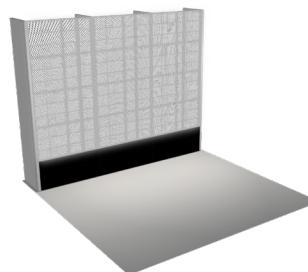

Innovate and bring your exhibits to life: reveal the beauty of your content with vibrant colors, spectacular images and a totally new visual experience.

Our panoLED allows for applications that go beyond exhibits. Designed to integrate with our Panoramic h-line and c-line modular systems, and with conventional exhibits.

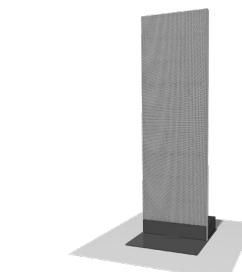

Whether hanging, standing or integrated into a design, the applications are endless.

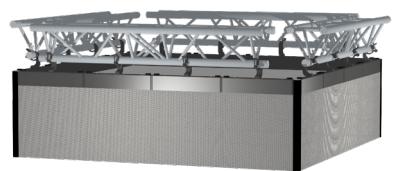

Exhibits

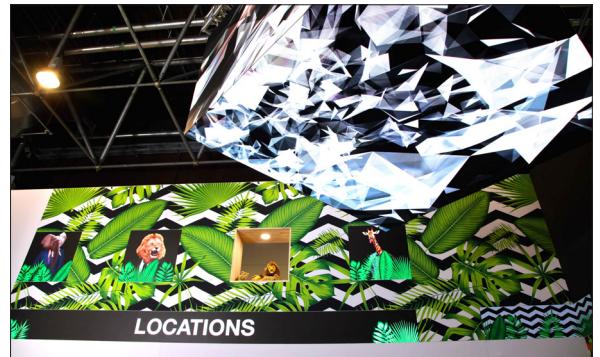

Video wall

Single-sided or double-sided

Hanging sign

NEW PRODUCTS

Lightbox

Thinner, more modular for even more creative possibilities! Accessories, profile colors and new printed reverse side options for a 100% customized lightbox.

Skywall hanging signs

Communicate with height and light.

Signature spotlight

A more design-focused, higher-performance lighting solution. Thinner, more modular for even more creative possibilities!

Transparent modules

Combine 4 transparent partition models to allow light to pass through.

MODULAR CONFIGURATIONS

Configurations ideal for 10' x 10', 10' x 15', 10' x 20', 10' x 30' and 20' x 20'.

Packaged in a wheeled shipping crate with pre-assembled graphics and modules.

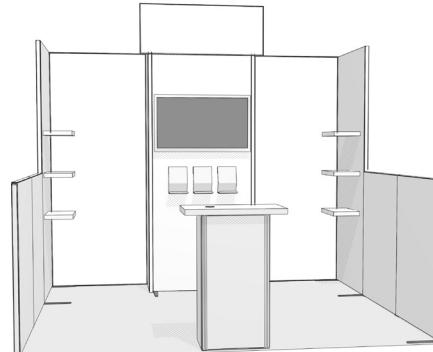

May be set up with or without professional assistance.

Available for purchase or rent.

PANOFLOOR. PRINTED FLOORING TO PERSONALIZE YOUR SPACE

panofloor.

10' x 10'	\$1,000
10' x 20'	\$2,000
10' x 30'	\$3,000
20' x 20'	\$4,000
20' x 30'	\$6,000

panofloor. uses large format dye-sublimation printing (up to 10' without a seam) for high-definition quality and an unbeatable color rendering.

panofloor. has a built-in rubber back and requires no tools, padding or tape to install. Simply unroll and you're ready to go.

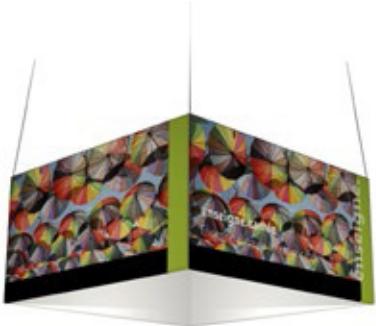

Max. lifespan: 3 events (depends on the conditions of use: traffic, color of the carpet...)

Not recommended for a permanent use.

Only available for purchase.

HANGING SIGNS

Our hanging signs are created with a tubular structure in anodized aluminum with stretch fabric covering the structure in its entirety. They provide 100% high impact communication. The graphic is printed onto fabric using dye-sublimation, which gives it exceptional color rendering and long wear.
